According to a statement through the daily press, the leaders of the Republican Party of St. Louis, are "off "E. E. McJimose, acandidate for fewerer of this State, whose the natarine has here tolore endorsed.

We must confess that we have been unable to decide whether such actions were for good or bad, in trew of the fast that Mr. McSimose has been a chronic seeker after the gubernational bosons, for some years. Therefore, at first sight, it seems a fittle bad for the party leakers of St. Lombson, beset him right through here. But, further consideration of his/case; it may be better for, the party bedset a time they discussed the property of the party leakers with the sight of his/case; it may be better for, the party bedset as the sight of his/case; it may be better for, the party bedset in the sight of his/case; it may be better for, the party bedset with the sight of his/case; it may be better for, the party bedset in the sight of his party and the property in the property is called the property and the property of the party and the property is called the property of the party and the property of the party and the property of the party and the party and the property of the party and t

have the geople to registee their sentiments at the polis on primary-day.

"Me stated through these columns following Mr. McLimsey a speech and amounterinent of his platform, that we were disappointed, in that it was weak and lacked in those broad primaples and comprehensions of the boar. So we are not at all sumrised at the party leaders, the machine of St. Louis failing in line with our statement, notwitestabling that fact at the since they said McJimsey was all right.

We hope however, that Mr. McJimsey said on take "collider and quit the tase for governor". There are always some district and quit the tase for governor. There are always some district are and epit the fact for governor. There are always some district are and the the populated limit the story and he will, no done, be before satisfied.

Different is the case of Divight Davie, the St. Louis machine candidate for the United States Service. If the party leaders get off Davis, and he quits the face, it wouldn't look quite so that as in, McJimsey-Leade. Col. Davis is not a chronic office seeker. But, however, we would suggest to the party leaders in St. Louis, that while they are jumping—better jump off Davis for United States Secants, for he is weak and dark to pressure up to the nam we need at this lime in the highest course of the Nations.

Through the Eyes of Youth

a tendency there is to discourage youthful couples against extravagance as they start out together in married life. "Wait antil you are as old as your parents, then spend your money for fine furniture. Most anything will do for the first few years." "Better save your money, children. You don't know what's going to happen to this country after a while." These are samples of expressions you often hear.

isn't s. single person connected with the management of The Only McNichols who believes in willful extravagance, but as we grow older, sometimes we find ourselves misinterpreting the meaning of the word when we set ourselves up as judges over the younger geotry. For instance, what we might call extravagance they term as investment. And the funny thing about it is that about half the time they are right.

In the case of furniture, let's carry our thoughts back to the time when we ourselves went through the same experiences. What are our first purchasels worth new, if indeed they exist at all? Suppose high grade, correct, refined selections of furniture like you see in The Only McNichols' had been made inatead, even though some ascrifices were necessary to meet the payments. There would have been pride of possession through the years with a permanent investment yielding pleasure and comfert today.

People age only as they think age. If you, gentle reader, are still youthful in years, the spirit is already there but, if many milestones have been passed, then look at the pleasure of furg your home in the right way through the eyes of youth. This

THAT is the kind of increase in salary the minister has received. His living expenses have riseh just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than \$20, a, week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these printilly inadequate salaries, how much do you centrihote. Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us ahare in the benefits of Christian ministers to the community. They marry us; bury us; bapture our children; visit us when we'are sick. In their hands is the spurmual training of the youth.

We Are All Profiteers at Their Expense
